

L83S MK2

Brand: AUDIOCENTER

Product Code: 0131

Availability: In Stock

Weight: 83.78lb

Dimensions: 30.71in x 8.66in x 24.61in

Price: \$1,779.00

Description

L83 MK2+L83S MK2 system is a compact multi-purpose active DSP column system consisting of a passive full-range column speaker L83 MK2 and an active DSP controlled dual 12" subwoofer L83S MK2.

L83 MK2 passive full-range column speaker is with 8pcs 3" full-range drivers and 2pcs 1" customized drivers. The drivers are designed with sophisticated measurement and arranged elaborately by physical calibration technology Phycal™ to improve vertical acoustic beam coverage. The ETET™ waveguide system developed by Audiocenter forms cylindrical wave, then couples continually, working together with customized horn design to realize the perfect joint of frequency response, which provides the accurate horizontal coverage and ensures the well-balanced, clean and clear sound. L83 MK2 can meet the reinforcement application in different venues and complex space.

L83S MK2 is an active DSP controlled compact subwoofer with 2pcs 12" customized drivers and Class D amplifier module. The system works efficiently and has built-in Bluetooth that supports multiple signal inputs.

L83S MK2 has been carefully tested. With elaborate acoustic design, innovative FTFT™ LF driver design and extensive testing, the cabinet is with three-order band-pass filter. By coupling the system continually and overlaying the resonances, the LF efficiency is improved significantly.

L83 MK2+L83S MK2 is a plug and play column system with easy set up. The presets are made with a lot of testing. The system can be put in various applications.
