

FD-2XA

Brand: BEYMA
Product Code: 0446
Availability: In Stock
Weight: 1.54lb
Dimensions: 6.30in x 5.12in x 2.76in

Price: \$130.00

Description

These 2 way passive filters have been specifically designed to be used with the XA and XC Beyma coaxials, in order to achieve an optimum performance of these drivers. Please, see attached filter selection guide to find the suitable filter model for each coaxial model.

These filters offer the possibility of an additional attenuation of the high frequency unit. Anyway, this attenuation is only optional, optimum performance of the coaxial is achieved without using it. However, if you wish to use it you can activate it by simply removing the aluminium bridge labeled as «AT» on the back surface of the board.
